SALES@VE-UK.COM

VE (UK) pride themselves on stocking a vast range of top quality scooter tyres from most of the worlds leading scooter tyre manufacturers. These include: Dunlop, Mitas, Michelin, Continental, Duro, Bridgestone, IRC, and Vee Rubber.

The range includes fitments from 8" to 18" inches, and covers most makes and models of scooters in all capacities from 50cc to 800cc. VE also stock many classic scooter tyres in whitewall finish.

We also supply inner tubes for Vespa & Lambretta scooters, Schrader valves, Valve caps, 90 degree Valve adaptors, tubeless puncture repair kits, puncture Goop, tubeless puncture tyre repair spray, Bridport Alloy valves, tubeless Invisible Valve kits, Floor tyre pump, tyre levers, rim protectors for tyre removal/fitting, and reflective wheel rim strips.

All your needs are covered for commuting, touring, general, fast road, off road or even race use, VE (UK) offer you the perfect choice to meet your requirements.

ALL BRANDS - ALL PATTERNS - ALL SIZES - ALL AT THE BEST PRICES

DUNLOP

ScootSmart:

ScootSmart is the first Dunlop scooter tyre to feature silica, this was previously only a feature of top level motorcycles tyres, for improved mileage and all-condition performance. The ScootSmart delivers high levels of grip and neutral handling up to 130mph

Fitments Available:

10", 11", 12", 13", 14", 15", 16"

TT72:

For those scooter racers that prefer to use the large 12" wheels for extra corner stability the TT72 GP is the perfect choice. With a serious looking tread pattern and performance to match the TT72 has propelled many racers to the top spot of the podium.

Fitments Available:

12"

TT93:

Replaces hugely popular TT91 GP and has even more grip! Tread pattern - developed from all-conquering Sportmax GP motorcycle race tyre - optimises pattern stiffness for instant handling response. Semi-slick tread is designed for maximum dry weather grip on circuits.

Fitments Available:

10", 12"

MICHELIN

City Grip:

Progressive Sipe Technology features:

- 1: Full-depth sipes which break up the water's surface film, no matter how much the tread is worn.
- 2: A gradual increase in the number of sipes in contact with the ground as you lean into turns.

Fitments Available:

10", 11", 12", 14"

City Grip Winter:

Featuring the same great characteristics as the City Grip but designed as an all season tyre promoting confidence in all conditions.

Fitments Available:

10", 12"

Pilot Sport:

The Michelin Pilot Sport SC Radial was developed in conjunction with major scooter manufacturers, the Pilot Sport SC Radial introduces radial technology for larger scooters that are approaching motorcycle-like levels of performance.

Fitments Available:

15"

Pilot Street:

Radial architecture tyre that enables improved overall response and handling as well as unrivalled performance over the long term, compared with a same-size cross-ply tyre.

Fitments Available:

17"

Power Pure:

The "Power Pure SC" tyre from Michelin has been designed to give owners enhanced grip across the entire tread pattern, utilising a "Dual Compound" structure to promote confidence in cornering which in turn promotes safety.

Fitments Available:

12", 13"

Pilot Road:

The "Pilot Road 4 Scooter" tyre from Michelin utilises a "Dual Compound" tread. The centre portion of the tread features a harder compound to provide lower rolling resistance with the shoulders of the tyre being constructed from a softer rubber.

Fitments Available:

14", 15"
